OLLEYAHEALTH

HIGH-TOUCH RCM. DATA-DRIVEN PERFORMANCE.

CODING | CHARGE CAPTURE | PROFESSIONAL CLAIMS | DENIALS | A/R | PAYMENT SUPPORT | REPORTING

ENT Revenue Cycle Support

Specialty-focused RCM and coding support for ENT practices.

ENT expertise. Cleaner claims. Stronger revenue.

Specialty-aware coding, documentation review, denial follow-through, and managed visibility built around the complexity of ENT workflows.

Our Approach

We combine ENT expertise, process, and managed oversight to support accurate coding, cleaner claims, and stronger revenue performance.

ENT Coding & Documentation

Professional coding support across common ENT office and surgical workflows, with attention to documentation, laterality, and charge readiness.

Procedure & Modifier Review

Focused review of same-day E/M and procedures, endoscopy and laryngoscopy, global-period logic, and modifier use when documentation supports it.

Denials & A/R Feedback

Denial and A/R findings are connected back to coding, documentation, payer, and workflow issues to reduce repeat rework.

The OlleyaHealth ENT Revenue Cycle Model

01 Intake & Prioritization

02 Code & Charge Review

03 Claims, Denials & A/R Follow-Up

04 QA, Reporting & Feedback

SPECIALTY EXPERTISE • ACCURACY • FOLLOW-THROUGH • VISIBILITY

ENT Engagement Results

+3.5 pts
Clinic collections performance

67% faster
Office E/M charge posting

48% reduction
Inappropriate global coding

40% cost savings
Reduced RCM service cost

Start Where the Opportunity is Greatest

No-cost ENT review • Coding workflow • Denials/A/R • Backlog • Defined ENT support scope
